

Holding true to our strategy of totally diverse manufacturing, we offer the most complete line of hybrid connectivity solutions in the marketplace. What other manufacturers consider custom, DMSI offers in a standard product grouping. Our HCS family of products includes single fiber trunks, panels, optical cable, multimedia/desktop boxes and jacks, mode converters, and a range of MTP® trunks, harnesses, mountable desk and standard modules. All products are available by combining different combinations of optical fiber in a single product. Deploying these hybrid style optical solutions can reduce material quantity and cost, and speed up installation time.

	Position 1-4	Position 5-8	Position 9-12
Cable	50µm Multimode	Single-mode	50µm Multimode
Typical IL Performance (LC Connector)	0.20	0.20	0.20
Typical IL Performance (MTP® Connector)	0.35	0.35	0.35
Typical Reflectance (dB)	1.10dB	1.90dB	1.10dB
