

Pre-Terminated MTP® Shelf

A cost effective pre-terminated MTP solution for quick deployments. Enclosure is pre-terminated with MTP pinned connectors in the back, and LC connectors on the front. The most common units feature 12 fiber MTP connectors routed to 6 duplex LC on the front. Mix and match single and multimode fiber types per set of 12 LC fibers, or mix and match fiber types per MTP connector.

Enclosures are highly configurable, please contact sales for part numbers and detailed drawings.

Pre-Terminated MTP® Shelf Ordering Information

Pre-Terminated Hybrid MTP® Shelf, 1U, 144F, Type A, MTP pinned to Internally Shuttered LC*
