

Optical module jacks can be installed in faceplates, multimedia or surface mount boxes and are available in FC, ST, SC, LC, MTRJ and MTP connector types. Module jacks provide an easy connection solution for wall outlets and desktop fiber connectivity applications.

- TIA/EIA 604 compliant
- Standard ceramic sleeves for any application
- Color-coded non-keyed with matching bezel options available
- Compatible with many competitor brand faceplates and boxes

## Optical Module Jacks, ORDERING INFORMATION

### Hybrid Keyed LC Duplex

Hybrid keyed LC optical module jacks are keyed on the front user side and non-keyed behind the wall. Hybrid jacks allow for cable behind the wall to be field terminated using a technician's preferred non-keyed field termination connector option.
