

PRODUCT INFORMATION

OMNIA-RS Enclosures

Classic Rack Mount

Features

- An attached **Rear Cable Management Plate** with keyhole cuts which mate with multiple corresponding cable management pieces to give each user complete individual preference for installation and requires less hardware and is less expensive to manufacture.
- The plate has **Multiple Key Rows and Positions** for management pieces to be installed.
- **Management Pieces** are a compliant cable holder and compliant cable router; the plate will also mate with a pre-terminated trunk cable breakout kit.
- Each management piece **Slides and Locks** into place using a compliant mechanism and is easily installed or removed without the use of a tool.
- The **Riveted Piano Hinge** ensures durable, long-lasting Front Door action without the hassle of extra hardware.
- The stylish **Slide Tray and Cable Management Bar** are now manufactured out of one piece of metal for ease of use and again requires less hardware.
- Two attractive **Door Knobs with Magnetic Catches** provide an aesthetically pleasing appearance while making it simple for the user to open and close the Front Door.
- The **Rear Door** offers easy removal with a unique Dual Plunger Design.
- The **Powder Coat Black Finish** gives the Enclosure a clean professional appearance.
- **Cable Strain Relief Brackets** are also included and can be installed internally or externally in the rear of the enclosure.
- Compatible with ECIA EIA/ECA 310-E 19 inch equipment rack and accepts pre-connectorized termination cassettes or adapter panels.
